

## German Laser Specialist U-L-M photonics Announces Extended Relationship with Microsoft for Advanced Laser Technology

Ulm, Germany  
Seattle, US

September 13- 2006

Since 2005, **U-L-M photonics GmbH**, Germany, has been the preferred laser technology supplier for the Microsoft Wireless Laser Mouse 6000 and Wireless Notebook Laser Mouse 6000. Having sold more than 2.5 million mice in the past months, the relationship will continue, as Microsoft has again chosen U-L-M photonics as the supplier for the succeeding product family. The excellent performance of the laser component, including lower power consumption and its ideal laser beam perfectly matches the highlights of the wireless laser mouse: longer battery life, greater precision, improved responsiveness, and smoother tracking.

**U-L-M photonics GmbH** located in Ulm, Germany, is a leading company in advanced vertical capacity laser technology for sensing and datacom applications. ([www.ulm-photonics.de](http://www.ulm-photonics.de))

### Microsoft's High Definition Wireless Laser Mice

Microsoft's High Definition Laser mouse products offer increased precision, responsiveness, and deliver smooth tracking ([www.microsoft.com/hardware/highdefinition.mspx](http://www.microsoft.com/hardware/highdefinition.mspx)).

#### **U-L-M photonics GmbH**

is supplying advanced laser technology to Microsoft's Wireless Laser Mouse 6000 series, including the Microsoft Wireless Laser Mouse 6000 and Microsoft Wireless Notebook Mouse 6000.
